

ONTARIO
JACKSON-TRIGGS WINERY

LOCATION

Niagara-on-the-Lake

COMPLETED

2008

ARCHITECT

Kuwabara Payne McKenna
Blumberg Architects

ACCREDITATION

LEED certified

DESCRIPTION

This watershed project houses both wine production and public areas. Production facilities house fermentation tanks and storage and barrel cellars, while areas designed specifically for the public include a tasting centre, a retail shop and entertainment areas. The large, double-height "Great Hall" acts as a link between the production and public spaces, and between the building and the outdoors.
