

ONTARIO YORK UNIVERSITY LIFE SCIENCES BUILDING

LOCATION

North York

COMPLETED

2011

ARCHITECT

NXL Architects in association
with SSG Architecture Inc.

ACCREDITATION

LEED Silver

AREA

160,000 square feet

DESCRIPTION

Four-storey, state-of-the-art university building that includes lecture halls, seminar rooms and supporting spaces, as well as high-security biology research labs. Constructed using reinforced concrete, this building was the first in Toronto to use Bubbledeck technology (a three-dimensional, hollow-core structure using void plastic balls).

AWARDS

Ontario Concrete Award, Engineering Category, 2011
